Stellar Mart's Sales Analysis Report.

This report analyzes Stellar Mart's sales data to identify trends over time, including monthly and seasonal fluctuations, and to evaluate year-over-year growth across regions. The analysis focuses on overall company performance and regional disparities.

Problem Statement

Stellar Mart, a mid-sized retail chain dealing in Electronics, Clothing, Home Appliances, Books, and Groceries, seeks to derive actionable insights from two years of sales data to drive strategic growth. With increasing competition and changing customer preferences, the company aims to use data analytics to enhance profitability and operational efficiency.

Project Objectives

- Identify sales trends over time, including monthly and seasonal fluctuations.
- Compare performance across product categories and identify underperforming ones.
- Analyze category-wise sales contributions from each region.
- Create dynamic visualizations highlighting sales trends and regional performance.

Report

1) KPI's

Total Revenue	Total Orders	Units Sold	Avg. Order Value
₹1,33,17,556.46	5,000	52,597	₹253.20

Insight:

Stella Mart recorded total revenue of ₹1.33 Cr across 2023–24, fulfilling 5,000 orders with 52,597 units sold at an average order value of ₹253.20 — reflecting steady transactional volume over the two-year period.

2) YoY Total Sales Growth

The table below shows total sales and year-over-year growth between 2023 and 2024.

Year	Total Sales	YoY Growth (%)
2023	₹ 65,28,457.52	0.00%
2024	₹ 67,89,098.94	3.99% ↑

Insight:

Total sales grew by ~4% YoY (2023 → 2024), increasing from ₹65.3L to ₹67.9L.
The growth was modest, reflecting steady demand but limited expansion potential.

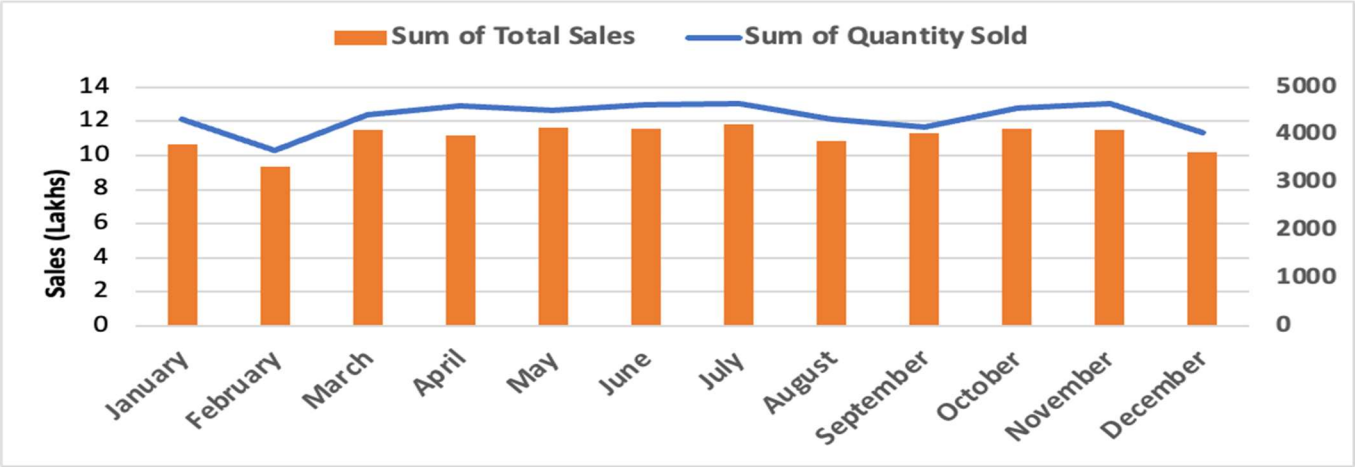
3) Quarter-wise Performance

Quarter	2023 Sales (₹)	2024 Sales (₹)	Total Revenue (Lakhs)	Change
Q1	15,41,976.46	16,12,034.49	₹ 31.54	4.54% ↑
Q2	17,77,381.21	16,60,549.88	₹ 34.38	-6.57% ↓
Q3	16,15,880.64	17,81,306.97	₹ 33.97	10.24% ↑
Q4	15,93,219.21	17,35,207.6	₹ 33.28	8.91% ↑

*All values in Indian Lakhs (₹L)

Insight:
Q3 2024 recorded the highest quarterly sales at ₹17.81L, with strong YoY growth in Q3 (+10.24%) and Q4 (+8.91%). Q2 was the only quarter to decline (-6.57%), dropping from ₹17.77L in 2023 to ₹16.61L in 2024 — warranting further investigation.

4) Monthly Trend & Seasonal Fluctuation

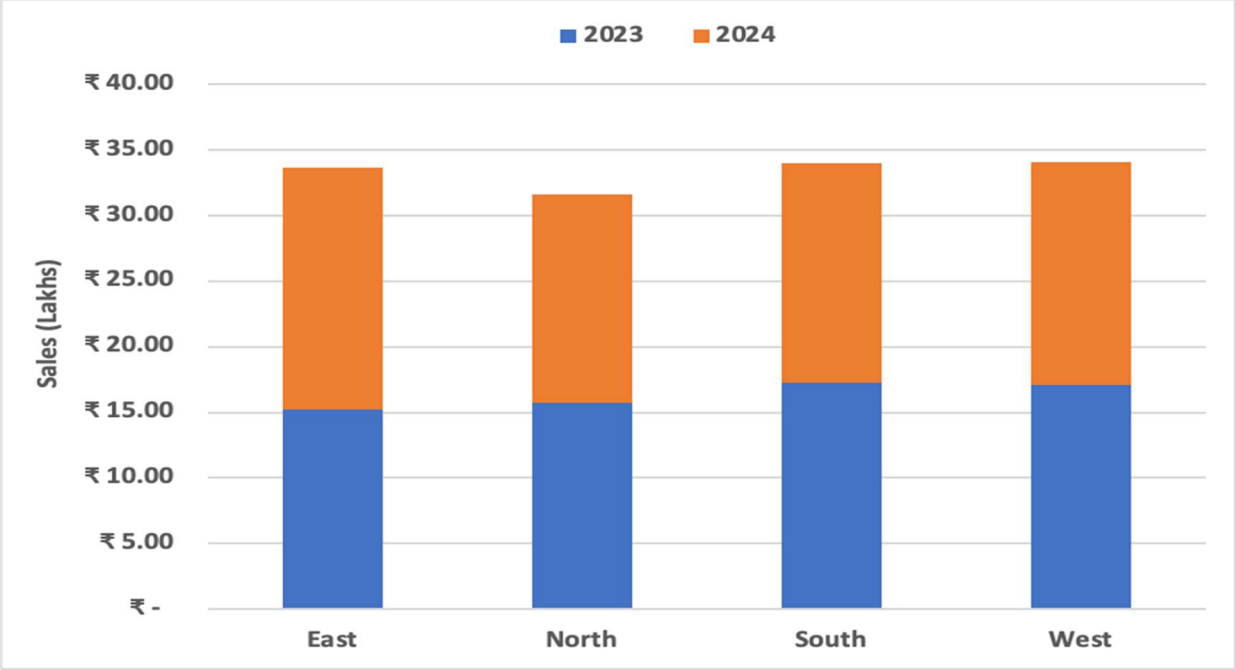


Insight:

Sales remain relatively stable throughout the year (₹10L–₹12L range), with July peaking at ₹11.83L and February recording the lowest sales at ₹9.37L, suggesting a mid-year demand surge and a slow start to Q1.

5) Region-wise Sales Growth

Region	2023	2024	% YoY Growth Region
East	₹ 15,17,784.22	₹ 18,47,184.49	21.70% ↑
North	₹ 15,73,229.88	₹ 15,85,519.65	0.78% ↑
South	₹ 17,28,112.88	₹ 16,64,052.99	-3.71% ↓
West	₹ 17,09,330.54	₹ 16,92,341.81	-0.99% ↓



Insight:

Average regional contribution stands at ~₹33 Lakhs per region (2023–24 combined). East led YoY growth at 21.70%, while North showed marginal growth of 0.78%. South and West declined by 3.71% and 0.99% respectively in 2024. Notably, both South and West were top performers in 2023 (~₹17 Lakhs each), making this decline a key area of concern.

Recommendation: Investigate and address factors driving the sales drop in South and West regions for 2025 planning.

6) Category-wise Sales Contribution

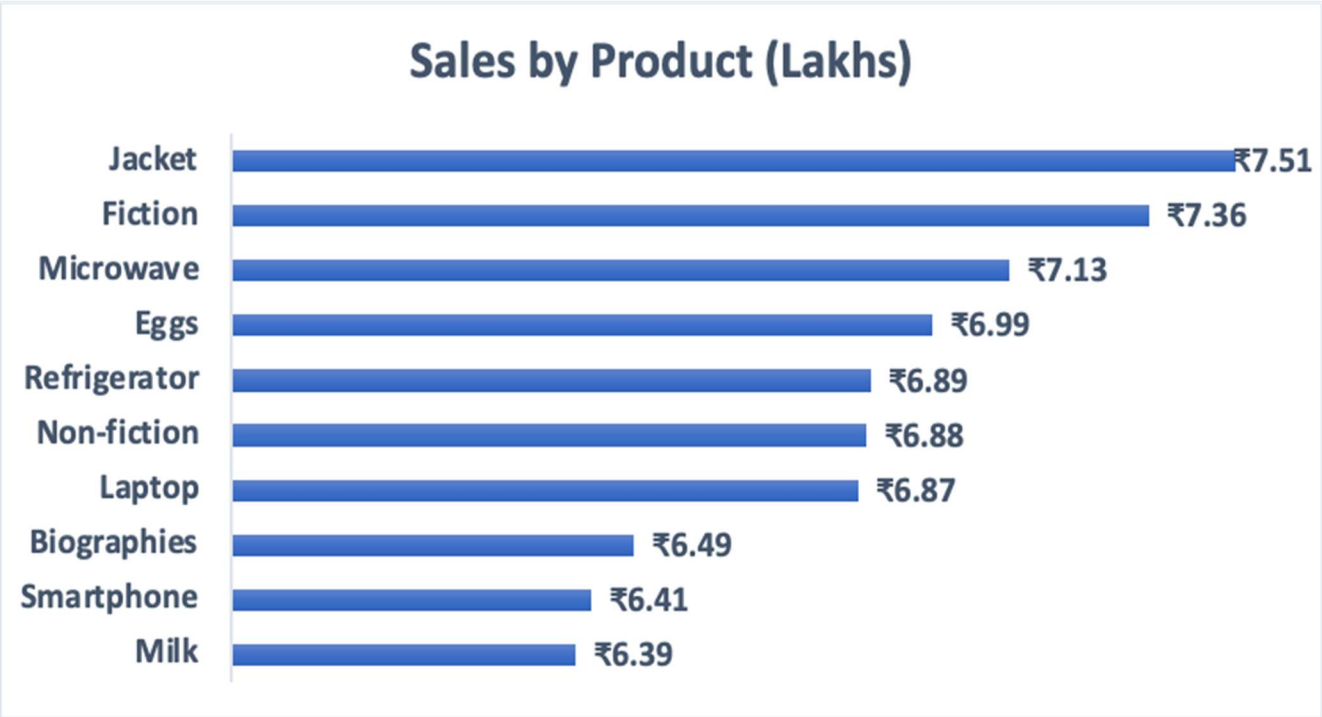
Region	High Performing Category	Contribution %	Under Performing Category	Contribution %	Key Observation
East	**Books** **Clothing**	**21.72%** **21.06%**	Electronics	17.40%	Books and Clothing perform equally well; Electronics underperforms.
North	Electronics	21.39%	Clothing	18.67%	Electronics lead; Clothing needs attention.
South	Groceries	21.97%	Books	17.38%	Grocery-driven region; Books lag behind.
West	Books	22.19%	Groceries	18.52%	Books top performer; Groceries underperform.

Insight:

Across all regions, no single category dominates consistently — performance varies by region.
- **East**: Books & Clothing are top contributors (~21%), while Electronics underperforms at 17.40%.
- **North**: Electronics leads at 21.39%, with Clothing as the weakest at 18.67%.
- **South**: Groceries drive the highest contribution at 21.97%, while Books lag at 17.38%.
-**West**: Book stop at 22.19%, whereas Groceries is the weakest at 18.52%.

Key Takeaway: Electronics struggles in East, Books in South, Clothing in North, and Groceries in West — region-specific strategies are needed to improve underperforming categories.

7) Top 10 Products by Total Sales



Insight:

Jacket leads Top 10 product sales at ₹7.51L, followed by Fiction (₹7.36L) and Microwave (₹7.13L), while Milk ranks lowest among the top 10 at ₹6.39L.

Key Recommendations

- Prioritize sales recovery strategies in South and West regions, which declined by 3.71% and 0.99% respectively in 2024 despite being top performers in 2023.
- Investigate the root cause of Q2's 6.57% sales decline and introduce targeted promotions during April–June to prevent recurrence in 2025.
- Deploy region-specific category campaigns — push Electronics in East, Clothing in North, Books in South, and Groceries in West to lift underperforming segments.
- Capitalize on July's peak demand trend by planning inventory buildup and marketing campaigns ahead of the mid-year surge to maximize revenue.
